

UVARAJKUMAR S

Cyber Security | Penetration Testing

Chennai, Tamil Nadu | Mobile: +91-8438292807 | Email: suvarajkumar553@gmail.com | [linkedin.com/in/uvarajkumar7](https://www.linkedin.com/in/uvarajkumar7)

PROFESSIONAL SUMMARY

Cyber Security graduate (B.E.) with hands-on experience in penetration testing, vulnerability assessment, network security, web/API security, and Active Directory environments. Skilled in Kali Linux, Nmap, Burp Suite, Metasploit, Wireshark, Gobuster, SQLMap, and Hydra, with experience identifying and validating security vulnerabilities. Developed practical security projects involving phishing detection, DDoS defence, and machine-learning-based threat detection. Certified Penetration Tester (CPT) seeking an entry-level Penetration Tester / Cyber Security Analyst role.

SKILLS

Security Reconnaissance	Network discovery, information gathering, protocol enumeration, service identification, And vulnerability validation
Application Security	Web and API vulnerability testing, input validation flaws, session security, SQL injection, XSS, SSRF, and CSRF
Security Tools	Kali Linux, Nmap, Burp Suite, Wireshark, Metasploit, Gobuster, SQLMap, Hydra, and Python
Network Security	Network scanning, port/service enumeration, vulnerability assessment, security misconfiguration testing, firewall and network-service analysis
Active Directory	AD enumeration, Kerberoasting, AS-REP Roasting, Pass-the-Hash, Pass-the-Ticket, ACL/security-permission analysis
Programming Languages	Python, Java,

PROJECTS

- **Message Sanitizer – SMS Spam & Phishing Detection:** Developed a machine-learning-based Android application using Logistic Regression to detect spam and phishing SMS messages in real time while processing data locally for improved privacy and user safety.
- **Dynamic UDP DDoS Defence:** Developed a decoy-based defence system with real-time traffic monitoring and dynamic routing to divert UDP flood attacks, achieving 94% attack diversion accuracy and 99% service availability.
- **Email Phishing Detection & Alert System** — Developed a Python-based system to detect phishing emails using suspicious keywords, links, and indicators, calculate phishing risk scores, and send a single automated alert to the account owner.

EXPERIENCE

MEE Technologies Company | *Full Stack Development Intern* |

Aug 2024 – Sep 2024

- Gained hands-on exposure to full-stack development and practical web application development using HTML and CSS.

CERTIFICATIONS

- Certified Penetration Tester (CPT) – [Red Team Hacker Academy] | July 2026
- Cloud Computing - [NPTEL] | July 2024- Oct 2024
- HDCA- Honours Diploma in Computer Application – [CSC] | Dec 2021

EDUCATION

Bachelor of Engineering in Cyber Security

2022- 2026

Paavai Engineering College

CGPA: 7.59

Namakkal
